

Extended Families

LinC Program: Linking + Including + Connecting

Whether you need skills training to enable participation, support to overcome barriers to access mainstream services or assistance to access the community, LinC can provide it all.

What is the Extended Families LinC Program?

We have a belief that everyone should be *linked in*, *included* and *connected* to their community, but know sometimes a little help is needed. We want to support children and young people to achieve this by supporting:

Skill development: Experienced staff provide individual life and social skills training for children / young people with a disability to enable them to participate more fully in the community and improve their relationships with others e.g. travel training, social skills

Capacity building: Working with participants to overcome barriers to accessing and participating in mainstream services.

Inclusion support: Providing 'one on one' support to enable engagement and participation in community, social and recreation activities. Our team of Inclusion Support Workers support the achievement of specified social, personal and developmental needs and goals.

If you're unsure about the support you need, talk to us about working out a plan for steps towards skill development to reach longer term life and independence goals.

The LinC Process

- 1. Contact Extended Families** - Speak to the LinC Team Leader about your support needs, including:
 - Intake assessment (if not already registered with Extended Families)
 - What you would like the support for.
 - When and how often support is needed.
 - We will ask you to fill out a referral form to ensure we have the information needed to make the best match.
- 2. LinC Request** – We'll explore our current pool of Inclusion Support Workers or if needed recruit specifically for your needs. When a Worker has been identified, a quote will be prepared based on your request.
- 3. Information** – Prior to the start of service we will ensure we have up to date support information about the participant and will create supporting documentation. We will provide you with information about the worker and provide the worker with information about the participant and their support network.
- 4. Service Agreement** – The quote will be used to inform a service agreement, which also includes; schedule of supports, description of service, how support will be provided, provider and participant responsibilities, payment requirements and outlines conflict of interest policy.
- 5. LinC Introduction** – You choose between a paid meet and greet or introductory shift with your specifically matched support worker.
- 6. Supervision and Support** – The LinC Team Leader will follow up with you and workers after the first visit for feedback. Families are able to communicate as needed with the LinC Team regarding any ongoing requests or changes.

What is the cost to have a LinC Inclusion Support Worker?

Note: Prices above are based on the NDIS Price Guide December 2020. They will be updated as new prices are published.

Additional costs

The above NDIS prices do not cover the cost of establishing or reporting the LinC match and service. To ensure we can provide a quality and safe service, we charge the establishment and reporting costs outlined in the NDIS price guide. We also include provision for non-face-to-face supports as outlined below.

Item / description	Price
Establishment fee - Applies when there are over 20 hours of support a month and the participant is new to Extended Families.	\$543.00
Non Face-To-Face Supports – Initial 2 hours to support with assessment, development of support needs information and matching of the best quality worker. 2 hours provision for NDIS reporting and client specific training when agreed upon with Participant or Participant Representative.	\$230.24 (4 hours)

Transport

If the match involves the provision of participant transport by the Inclusion Support Worker, travel will be charged at a rate of \$0.90. This will be charged via the associated category above. Travel for meetings or visits to complete further assessment to ensure a quality service or as part of introducing and preparing an Inclusion Support Worker will also apply.
